

Bangalore's premier furniture solutions company increases process efficiency with online inventory

Customer Profile

Region: Bangalore, INDIA
Industry: Furniture Solutions
Website: www.justinsides.com

Just Insides is a one-stop furniture Solutions Company offering design to execution, specializing in kitchen and wardrobe shutters.

Business Challenge

Every project of Just Insides is an endeavor to deliver high on Quality and esthetics.

To achieve its goal, Just Insides sources its components from globally renowned manufacturers and requires an agile supply chain management system.

Bizframe Solution

Just Insides has unique business requirements for its component sourcing and work execution. Just Insides were looking for a partner who could transform their vision into a usable, scalable and customizable web base inventory management system.

Bizframe created a custom, state-of-art online inventory management system that enables an efficient workflow, including component procurement, orders management and final delivery. The system offers the management an easy way of sharing inventory data with vendors and allows web based order placement.

The outcome is an intuitive, scalable and robust web based inventory solution that make it efficient for Just Insides team to process orders and update the inventory without compromising their established business processes.

“Bizframe's constant, intended and prompt support, provided beyond the scope of the delivered software makes us want to acknowledge the team's effort.”

Shruthi V. Gupta Partner, Just Insides

Technical Details

The application was developed using Microsoft Technologies for the middleware and MYSQL for database to deliver a cost effective solution. Bizframe also manages the hosting infrastructure for Just Insides web inventory.
